

REGISTERED CHURCH ANNUAL CONTRIBUTION

Green Churches Network aims to empower faith communities in adopting environmentally sensitive practices through action and awareness, as well as through the development of a Christian spirituality closer to Creation.

The registered faith communities contribute financially to the Green Churches Network. The contribution is \$100 per year, usually paid in January and applied to the following calendar year. If your first contribution is sent during the year, it can be reduced according to the months left in the calendar year (Example: July = \$50).
