TOP 5 PASSAGES ABOUT ECOLOGY

God Creates the World (Genesis 1:1 – 2:4)

God created the heavens and the earth by establishing order over chaos. Through His Word, the land and sea produce animals and plants. Human beings are created in the image of God. Looking at all Creation, God saw that it is very good and he rested on the seventh day.

Creation of Adam and Eve (Genesis 2:4-24)

The first human, Adam, is fashioned from the earth (*adamah*) and water. God breathes air into his nostrils and man becomes a living being. He is placed in a garden to cultivate it and keep it. He surveys his territory and names the animals. His companion Eve, whose name means life, is bone of his bone, flesh of his flesh.

Noah's Ark (Genesis 6-9)

Preceding an imminent disaster, God gives Noah a mission: to build an ark which can hold one couple of each species. During the flood, Noah and his family take care of the animals onboard. When the waters recede, God sets a rainbow in the sky as a sign of his covenant with humanity and with every living creature for all future generations.

God speaks to Job (Job 38-42)

After leading a successful life, Job suddenly lost everything. From within a whirlwind, God questions Job's perception of life. God names a list of animals over which Job has no power, insisting that these animals were not created for the benefit of humans, but coexist with humans under one creator God.

Look at the birds and the lilies (Matthew 6:25-34)

In a society where one's personal budget and the economic worries take on so much importance, we can easily succumb to believing that our achievements are exclusively the fruits of our own efforts. When we seek to live simply and justly, and God gives us what we need.
